

THE SUPER BOOT

The super boot can be used as a compost tea brewing vessel, a growing medium, and a satchel of worm castings all in one.

Brewin' with the SUPER BOOT

*not for human or animal consumption!

1. Empty your compost into that tea boot.
2. Cinch that boot.
3. Hang that boot into a 5-gallon bucket.
4. Fill that bucket 3/4ths full with dechlorinated H₂O
5. Aerate that mixture for 24 hrs, using a bubbler or aquarium pump

Apply the finished tea to your soil or spray on a leaf bath - careful though, this stuff is **STRONG!** For soil application, dilute with water to a ratio of 1:4, for leaves, dilute with water to a ratio of 1:3

Gardenin' with the SUPER BOOT

There are two ways to garden with the compost tea boot:

1. Add potting soil, seeds or established plants - & grow something pretty!

2. Throw boot onto your compost heap or in your Bootstrap bucket to create future black gold!

Nurturin' with the SUPER BOOT

This jar of compost and worm castings is packed with key nutrients, trace minerals, and billions of beneficial microbes!

Sprinkle a pinch on your plant roots or mix in a handful with potting mix.
